

11/2/70

Dear Dick,

Time crunch here oppressive. Just finished last of in-hand proofs and about 350-400 more pp about to be mailed. Meanwhile, back on the Fensterwald ranch, I'm having to do the law work, because he quit and there is no choice. Of course, his public posture is that he is handling the suits. I have an answer to a government answer to go over-and hope it is proper and the right approach and another one I'm to file to finish preparing.

Hence my brevity.

Clips on FBI-Karpis great. I'll use that in my appearance .

I'll try and remember the Handbook when I'm in DC and at a bookstore. Thanks for the citation. There is no hurry on the frag. stuff. ...No new word on or from Moch. There is no real answer to your ballistics stuff, which probably accounts for his failure to ask your opinion when I first suggested it to him.

Gary has been pretty busy, too, I presume, with the re-opening of school. Also MR.

Again, thanks.

H
